

ANALYSENZERTIFIKAT

CERTIFICAT D'ANALYSE

CERTIFICATE OF ANALYSIS

Confarma-Nr. 229100911 A - B
Operator: RRIJoker AG
To Fleury Meinrad
Industriezone Postfach
CH 3210 Kerzers

Product name: Cyber Clean professional

Analytical method: EN 1040 « Chemical disinfectants and antiseptics
and Confarma study 229100911 A - BSample (batch/lot): A: KR09/014.2
B: KR09/015Study of disinfectant efficacy by the microbe carrier test under simulated conditions of use

Method used:	Microbe carrier test under simulated conditions of use
Micro-organism used:	Staphylococcus aureus (MRSA) ATCC 43300

Results

Batch KR09/014.2	Dilutions			TCO / 10 µl		
	10 ⁻⁴	10 ⁻⁵	10 ⁻⁶			
Control 1	TNTC / TNTC	57 / 50	3 / 4	5.35 x 10 ⁵		
Control 2	TNTC / TNTC	43 / 52	7 / 2	4.75 x 10 ⁵		
Control 3	TNTC / TNTC	40 / 44	3 / 9	4.20 x 10 ⁵		
	10 ml	90 ml		100 ml	Log reduction (A+B)	Con- clusion
		1 ml	89 ml			
Assay A 1 minutes	NG	NG	2	2	5.32	C
Assay A 5 minutes	NG	NG	NG	0	5.62	C

TNTC: Too numerous to count

NG: No growth

C: Complies

CERTIFICATE OF ANALYSIS

Confarma-Nr. 229100911 A - B

Batch KR09/014.2	Dilutions			TCO / 10 µl		
	10 ⁻⁴	10 ⁻⁵	10 ⁻⁶			
Control 1	TNTC / TNTC	57 / 50	3 / 4	5.35 x 10 ⁵		
Control 2	TNTC / TNTC	45 / 36	3 / 6	4.05 x 10 ⁵		
Control 3	TNTC / TNTC	40 / 44	3 / 9	4.20 x 10 ⁵		
		90 ml			Log reduction (A+B)	Con- clusion
	10 ml	1 ml	89 ml	100 ml		
Assay A 1 minutes	NG	NG	1	1	5.62	C
Assay A 5 minutes	1	NG	2	3	5.14	C

TNTC: Too numerous to count

NG: No growth

C: Complies

Conclusion: The 2 batches of the test item complies with the acceptance criteria of the norm EN 13697 of superior or equal to 5 log₁₀ reduction with the action time of 1 minute and 5 minutes for living bacteria *Staphylococcus aureus* MRSA.. No deviation from the method and/or procedures and no out of specification (OOS) have been observed.

The tested products corresponds to the requirements and testing was performed according to current GMP rules. No deviation from the method and/or procedures and no out of specification (OOS) have been observed.
